EDUCATION

Stevens Institute of Technology Hoboken, NJ

Bachelor of Mechanical Engineering. *Expected May 2029*

EXPERIENCE

Construction Inspector Intern May 2026 – August 2026

Elevation Land Solutions *Houston, TX*

- Interpreted engineering drawings and project specifications to support construction inspection activities
- Prepared engineering project deliverables and technical documentation
- Participated in design review and project coordination activities on land development projects
- Worked alongside licensed engineering professionals to support project execution

Sports Photographer/Videographer September 2026 – Present

Stevens Institute of Technology Athletics Department *Hoboken, NJ*

- Photograph/video graph athletic events for the Stevens Institute of Technology Athletics Department
- Create video mixtapes and edits for social media
- Create/edit photo collages

PROJECTS

Autonomous Rover Project

- Designed and built an autonomous rover capable of navigating predetermined coordinates
- Implemented ultrasonic sensor obstacle-avoidance functionality
- Integrated mechanical, electrical, and programming components into a working system
- Conducted testing and iterative design improvements

Automated Self-Watering Plant System

- Designed an automated irrigation system using sensor-based controls
- Developed a system to monitor environmental conditions and activate watering functions

ACTIVITIES & LEADERSHIP

National Society of Black Engineers April 2026 – Present

Programs Chair

- Coordinate professional development and networking events; collaborate with student leaders and industry representatives; manage logistics and planning for chapter programming; support member engagement and professional growth initiatives

Black Student Union September 2025 – Present

Historian

- Maintain organizational records and event documentation; develop media content and communications highlighting chapter activities

Young Life August 2025 – Present

Youth Leader

- Facilitate inclusive, supportive environments that motivate youth and foster active participation in their personal and spiritual journey

SKILLS

Engineering Software: SolidWorks

Programming: C++

Productivity Tools: Microsoft Excel, Microsoft PowerPoint
