Riley Beaudion

Hoboken, New Jersey | Rbeaudio@stevens.edu |www.linkedin.com/in/riley-beaudion

EDUCATION

Stevens Institute of Technology Hoboken, NJ
Bachelor of Mechanical Engineering. *Expected May 2029*

EXPERIENCE

Construction Inspector Intern May 2026 – August 2026
Elevation Land Solutions *Houston, TX*

- Interpreted engineering drawings and project specifications using Bluebeam to support construction inspection activities on land development projects
- Prepared engineering project deliverables and technical documentation
- Participated in design review and project coordination activities
- Collaborated with licensed engineering professionals to support project execution

Sports Photographer and Videographer September 2026 – Present
Stevens Institute of Technology Athletics Department *Hoboken, NJ*

- Photograph and film athletic events for the Stevens Institute of Technology Athletics Department
- Produce video mixtapes and edited highlight reels for social media distribution
- Design and edit photo collages for department use

PROJECTS

Autonomous Rover Project

- Designed and built an autonomous rover capable of navigating predetermined coordinates using Arduino
- Implemented ultrasonic sensor obstacle-avoidance functionality
- Integrated mechanical, electrical, and programming components into a unified working system
- Conducted testing and iterative design improvements

Automated Self-Watering Plant System

- Designed an automated irrigation system using sensor-based controls
- Developed a system to monitor environmental conditions and activate watering functions

ACTIVITIES & LEADERSHIP

National Society of Black Engineers April 2026 – Present
Programs Chair

- Coordinate professional development and networking events for chapter members; collaborate with student leaders and industry representatives on programming; manage logistics and planning for chapter events; support member engagement and professional growth initiatives

Black Student Union September 2025 – Present
Historian

- Maintain organizational records and event documentation; develop media content and communications highlighting chapter activities

Young Life August 2025 – Present
Youth Leader

- Facilitate inclusive, supportive environments that motivate youth and foster active participation in their personal and spiritual journey

SKILLS

Programming: C++, Arduino
Engineering Software: SolidWorks, Bluebeam
Productivity Tools: Microsoft Excel, Microsoft PowerPoint
